

Her shirt says 'vouth', with a deliberate misreading on it. See the last page for a better explanation.

## Hinata and the Black Cat Sugano Manami

English Translation: Estherlea || contact: estherlea@yahoo.com

There's a bit of kanji wordplay in this book that is hard to effectively translate. Here is an explanation of some bits in this chapter.

Firstly, Hinata's name is a bit of a pun in itself, 'Kinoshita Hinata' means 'sunny place underneath a tree'.

The name Hinata is commonly spelt using hiragana, as it is in this chapter.

The name Hinata is commonly spect using niragana, as it is in this chapter. On the first page, Hinata says the black cal likes "hinata books" sunbathing/ lazing around in the sun, which is written in Kanji. However, on the last page, the cat god says the same word, 'Hinata bokko', using the hiragana (the name), showing she has grown fond of being around Hinata.

I did an overly literal translation, rather than just 'sunbathing', which hopefully makes the play on words a bit clearer.

Secondly, Hinata's shirt says 'youth' in Japanese, which consists of two Kanji reading 'Seishun' (perhaps you have heard of 'Seishun Juuhachi Kippu'- 'Youth 18', a popular seasonal discount train ticket in Japan for touring on local lines).

Anyway, the English text on her shirt obviously doesn't read 'seishun', but rather 'ao haru', which reads the characters as being seperate, 'blue' and 'spring'.

What this shows inn't immediately clear, but it could imply she has a sardonic attitude towards the idea of 'youth' a la oregainu (if you have seen/read that). Alternatively, it could just play the role of a quite drab pun to show her daggy clothes and lack of fashion sense. Conviniently, Manami put it on the last pagel That makes up for all the quite involved SFX cleaning... I did this chapter in basically one hit too, so sorry again for any errors I have made.

Please remember to pay for this if you enjoyed reading it by purchasing an e-book or paper copy, they are very affordable and available from a couple of online stores!
